Įvairių kompetencijų ugdymas užsienio kalbų pamokose iš mokytojų ir mokinių perspektyvos

Savo darbe vadovaujamės mūsų mokyklos vertybėmis, kurios, mūsų manymu, yra **esminės** ne tik mokant ir lavinant jaunąją kartą, bet ir socialiniame visuomenės gyvenime. Jas trumpai aptarsime.

Atvirumas pokyčiams

Nuolat mokomės ir tobulėjame, priimame iššūkius. Todėl labai svarbu, kad mokykla žengtų koja koja su visomis naujovėmis ir prisitaikytų prie nuolatinės kaitos.

Pagarba įvairovei

Į mokinių skirtybes žiūrime kaip į galimybes ir išteklius, nes tik nuo mokytojų priklauso kiekvieno mokinio akademiniai ir asmeniniai pasiekimai.

Kūrybiškumas

Skatiname mokinius kritiškai mąstyti, teikti idėjas ir jas įgyvendinti, ieškoti naujų sprendimų. Jei kažkas nesiseka, į tai žiūrime kaip į galimybę atrasti kažką naujo.

Aktyvumas

Nuolat raginame mokinius kuo aktyviau dalyvauti veiklose ne tik mokykloje, bet ir už jos ribų, ir tokiu būdu auginame aktyvius, kūrybingus, veiklius jaunos žmones.

Pilietiškumas

Skatiname ne tik mokinius, bet ir visą mokyklos bendruomenę pažinti gimtąjį kraštą, dalyvauti prasmingoje socialinėje veikloje.

Esame mokykla, ugdanti mokinių gyvenimo sėkmei. Tai mūsų **vizija**. Todėl pamokose stengiamės ne tik suteikti akademinų žinių, bet ir plėsti mokinių akiratį, perteikti šiuolaikiškumą, motyvuoti juos mokytis ne dėl pažymių, bet dėl **savęs**.

Štai ką mano septintokas Joris apie darbą anglų kalbos pamokose:

Įvairių **kompetencijų** ugdymas yra neatsiejama šiuolaikinės pamokos dalis, o užsienio kalbų pamokos būtent ir yra dėkingos tuo, kad jose galime ugdyti visas galimas kompetencijas.

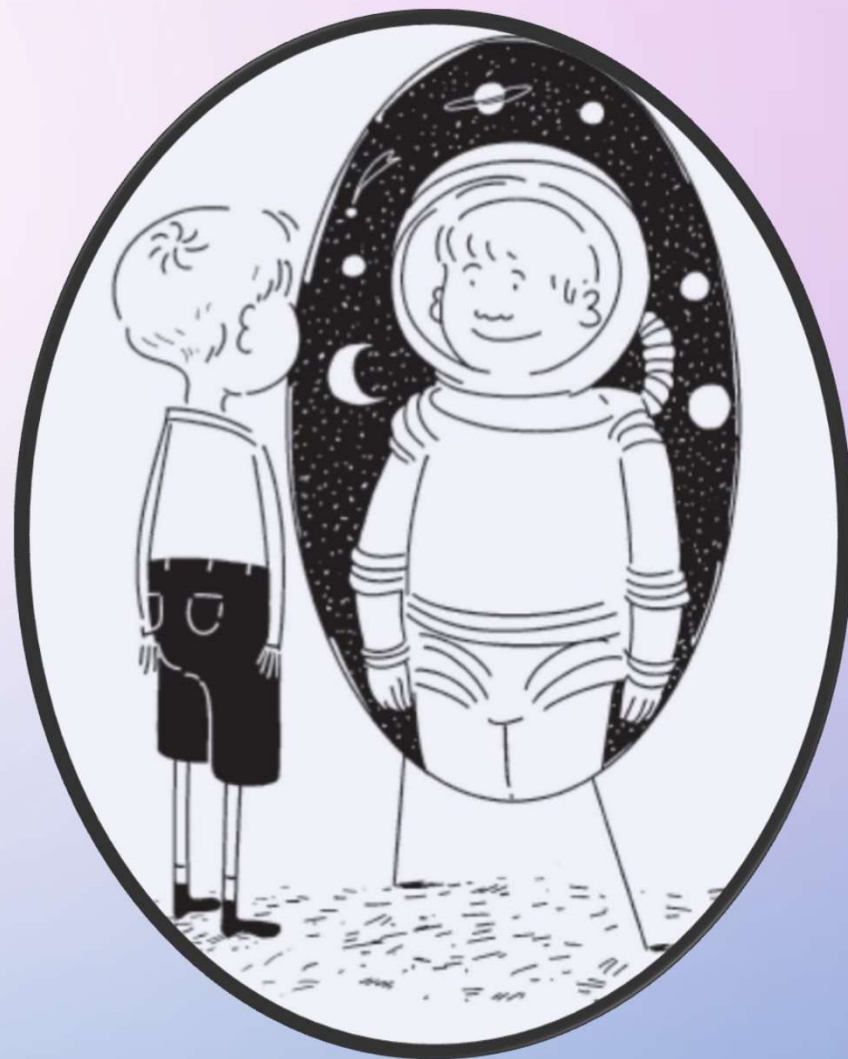

Paklauskite, ką mūsų mokiniai mano apie tai ir po to aptarsime keletą jų.

Pirmiausia – tai **pažinimo kompetencija**. Tai dalyko esmė, specifinės gramatinės bei lingvistinės žinios bei įgūdžiai, kuriuos mokiniai turi įgyti mūsų pamokų metu.

Pradėję naują temą, mokomės struktūros:

*Sakinių keitimas iš veikiamosios į
neveikiamąją rūšį:*

Emily writes books.

Books are written by Emily.

Po to, mokiniai atlieka įvairius pratimus.

Mokiniai atidžiai seka pamoką, kai gali aiškiai skaidrėse pasitikrinti atsakymus. Štai kaip mes tai darome:

1 Sofia always goes swimming on Fridays.

2 The students usually do their homework.

3 My father seldom watches TV.

4 British athletes rarely win Olympic medals.

5 My cousin is often ill.

6 John is never late for class.

7 John usually gets to school early.

8 We don't go out very often.

Complete the sentences with **TOO** or **ENOUGH** and the adjective in brackets:

1. Peter is **too short** to become a police officer. He's only 1.65 m tall.
(short)
2. I'd like to buy a new car and a good house, but I'm just not **rich enough** to do it. (rich)
3. My school is **too far** from my house to go on foot. So, I cycle to school every morning. (far)
4. Kelly is **too young** to drive a car. She's only 14. (young)
5. That skirt you are wearing is **too tight** for you. You need a bigger size.
(tight)
6. David is quite a fast runner, but he isn't **fast enough** to beat the Italian runner, who is considered to be the best. (fast)
7. I'm a good swimmer, but I'm not **good enough** to enter a championship.
(good)
8. The beach was **too crowded** yesterday, so we decided to go somewhere else. (crowded)

Ir galiausiai pereiname prie savarankiško kalbos naudojimo, kai mokiniai ruošia įvairius kūrybinius darbus pagal mokomas temas. Štai keletas pavyzdžių:

My  is much bigger than my .

My ~~first~~ parent's first  ^{was} is much smaller than their new .

Pažinimo kompetencija apima ir **mokėjimą mokytis.**

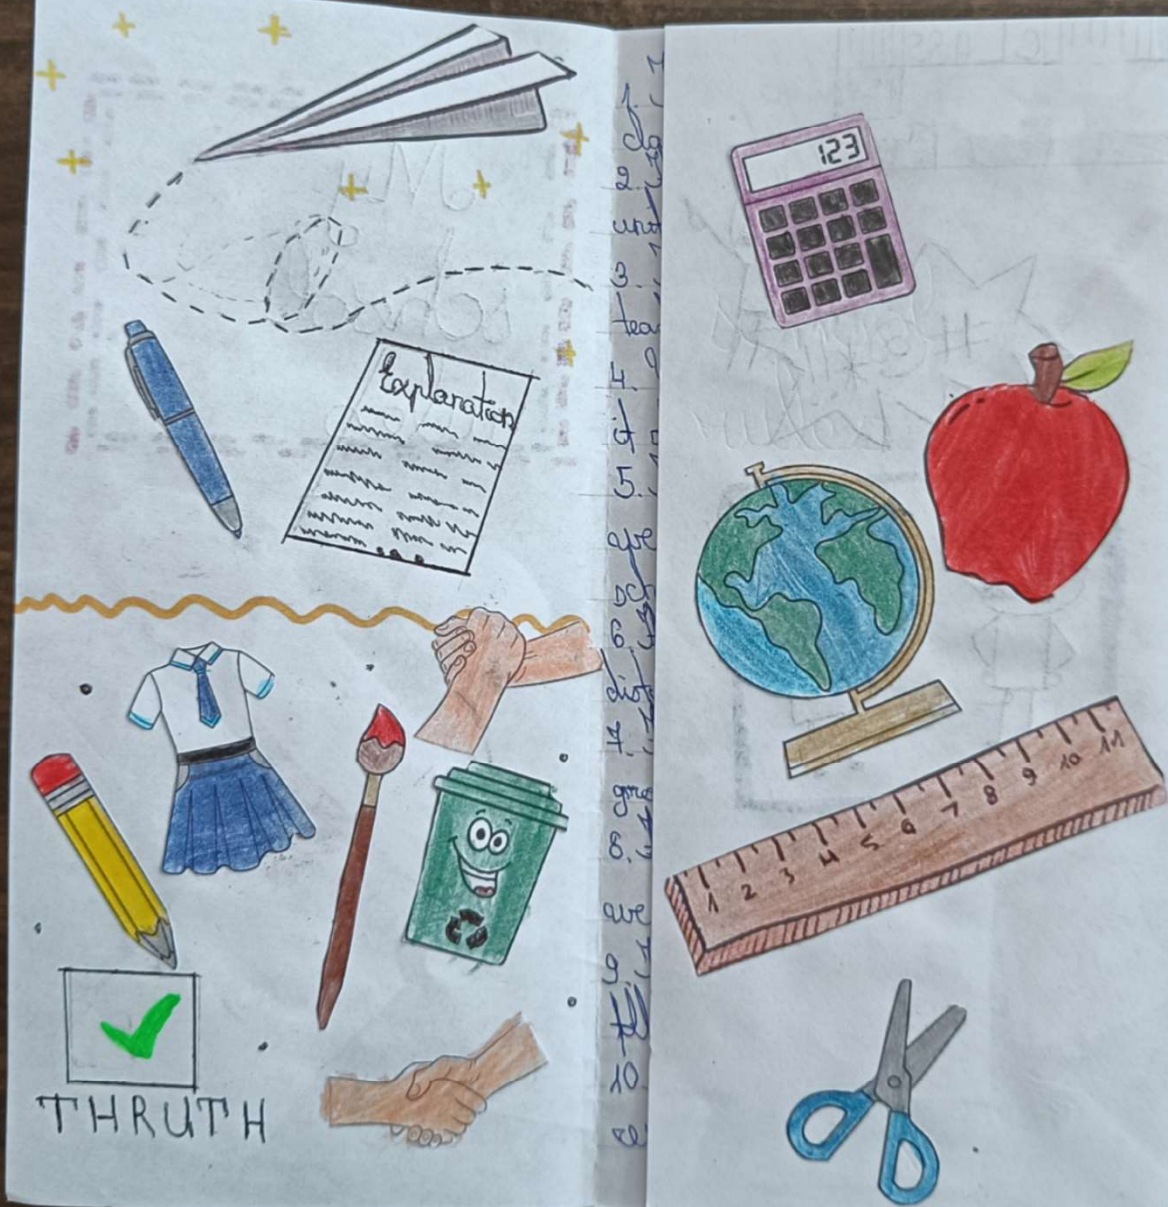

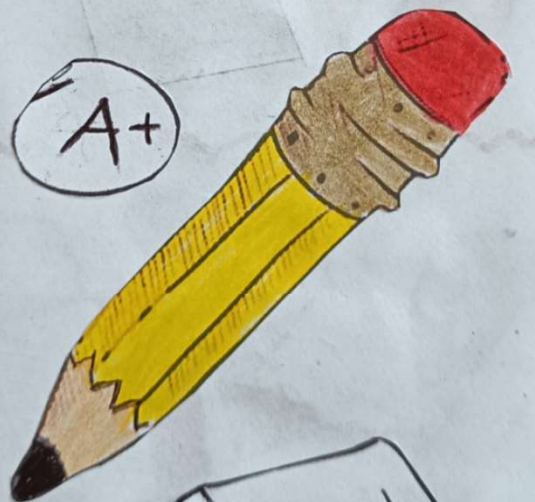

Mokinius pratiname atlikti darbus pagal numatytus kriterijus. **Kriterinis vertinimas** taikomas pristatant baigiamąjį skyriaus ar temos darbą ir tai yra viena mėgstamiausių veiklų, nes darbo pristatymo metu visi mokiniai tampa mokytojais-vertintojais.

8-os klasės mokiniams buvo skirtas ilgalaikis namų darbas: sukurti 10 sakinių lankstinuką apie mūsų mokyklos taisykles – naudoti Conditionals 0 ir 1 sakinius (5+5). Lankstinuką atlikti tvarkingai, pageidautina kiekvieną sakinį ar nors 7-8 sakinius iliustruoti paveikslėliais (galima piešti, atspausdinti arba iškirpti ir priklijuoti), sakiniai turi būti gramatiškai taisyklingi. Bus vertinama pažymiu **pagal susitartus kriterijus.**

My school rules:

- If you behave irresponsibly during breaks, you will be warned.
- If you vandalize school property, you will need to arrange for it to be replaced.
- If you don't wear a school jacket, you get a fine.
- If you disturb and don't listen to the teacher, you get a discipline sheet.
- You will have to attend a child commission meeting if you often play truant.
- You get a minus if you don't do your homework.
- If you bully someone, you will have trouble with the social pedagogue.
- If you actively participate in various events, you receive a praise.
- If you have a fight with someone, you can be suspended.
- If you cheat on a test, you get a negative grade.

If you vandalize your school on purpose,
your parents have to pay for it.

If you get in huge trouble,
you might have to change schools

If you don't wear your uniform,
you get in trouble or
get a warning.

If you use your phone in class,
it will get taken away

If you smoke in school, you get in trouble

If you keep on getting bad grades,
the teacher will yell at you and
tell your parents.

If you don't listen, the teacher
will yell at you

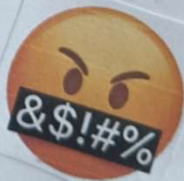

If you're always late to class, you will get a punishment

If you drink alcohol on school trips,
your teacher is going to inform your parents.

If you bully someone,
you have a talk with a social worker.

7. If students speak in the lesson without teachers permission they can get a remark.
8. If student bullying other students he will write an excuse.
9. If student late for school he gets a remark.

Kai mokiniams aišku, ką, kiek ir kaip jie turi daryti, ir kokio pažymio po to gali tikėtis, tai kelia ir motyvaciją mokytis.

Čia verta paminėti ir **asmeninės kompetencijos** ugdymą, kai net paprastus namų darbus mokiniai stengiasi atlikti kūrybingai, išradingai, ir – kaip jie patys sako – kitaip.

Šios dienos pamokoje labai svarbus yra **skaitmeninės kompetencijos** ugdymas, kuris glaudžiai siejasi su **kūrybiškumo** ugdymu. Daugelis mūsų mokinių jau yra puikiai įvaldę šį procesą ir kuria gražius baigiamuosius darbus naudodami skaitmenines technologijas.

Daugelis mokinių ruošia atsiskaitymus skaidrių pagalba ir juos pristato klasėje tuo pačiu lavindami ir oratorystės meną, nes bando įveikti viešo kalbėjimo baime, kuri, pagal apklausų duomenis, yra viena didžiausių žmonijos baimių.

Štai vienas 8-os klasės mokinės namų darbo pavyzdys. Mokiniai turėjo paruošti įžymaus žmogaus gyvenimo ir sėkmės istoriją, pakomentuodami pasiekimų svarbą bei reikšmę.

Orpah Gayle Winfrey

What is success?

- **Success**, it's something we all strive for in some form or fashion, but what is it? What is success? There are multiple definitions these days. However, there seems to be just one common thread that most people do agree on about success. And that is this, that success is a byproduct of persisting in the face of failure.
- So I chose a very unique success story that I will be presenting soon!

Oprah childhood and early life

- She was born into poverty and a broken home in Kosciusko, Mississippi, U.S. on January 29, 1954. Her parents who were just 18 and 19 when they had her, split soon after she was born, so she ended up being taken in by her grandmother. And her grandmother was not your typical warm and fuzzy grandmother. No, she was a hard-nosed grandma who was an extreme disciplinarian who discipline her for even the slightest offenses. She even learnt how to read at age 2. But, the poverty and disciplined lifestyle didn't last forever as she moved back with mother at the age of six because her grandmother got sick.
- Oprah would then experience sexual assault at an early age, having been molested as early as 9 by some of her family members. And having been emotionally abandoned, abused, and molested, she eventually started part-taking in extremely risky behaviors which led to her becoming pregnant at the age of 14.

What happened next?

- Because Oprah got pregnant her mother kicked her out of the house, and she went to live with her father. She was afraid to reveal her condition to him. So the same day she told her dad the truth, she went into labor. The baby, a boy, died within a week, never having left the hospital or having been held by his mother.
- Needless to say, Oprah's early life was chockfull of struggle, adversity, and tragedy. But, regardless of all of her unfortunate experiences, she decided to turn her life around after she lost her baby. So, she committed herself to getting an education, becoming her best, and to going after her dreams. She decided to start trusting and loving herself again, and making choices that would improve her life versus destroy it.

Oprah Winfrey's Education

- Oprah Winfrey was a clever and imaginative child who developed a love of reading at an early age. Oprah moved around a lot as a young child, never staying in one school long, but one elementary school she was known to attend was Wharton Elementary School in Nashville.
- After a tumultuous and troubling childhood with her mother, Winfrey ran away from home at the age of 13. Then she was sent to live with her father Vernon in Nashville again. Vernon Winfrey gave Oprah the structure she needed and placed a high value on education, requiring her to read a book each week and write a book report on it. Oprah attended East Nashville High School when living with her father, where she found she enjoyed public speaking. Oprah was an active student at Nashville East High School, where she was an honors student. She was part of the drama and debate clubs, and she was a member of the student council and a member of the school's speech team.

More facts about her education

- After graduating from high school in 1971, Oprah attended the HBCU Tennessee State University on a full scholarship she had won in a public-speaking competition. She majored in Speech Communications and Performing Arts. Oprah left college a credit short of graduating in 1975 for her job, but later she completed the course and received her degree in 1987.
- Among many of her inspirational sayings, Oprah Winfrey has famously said, "Education is the key to unlocking the world, a passport to freedom."

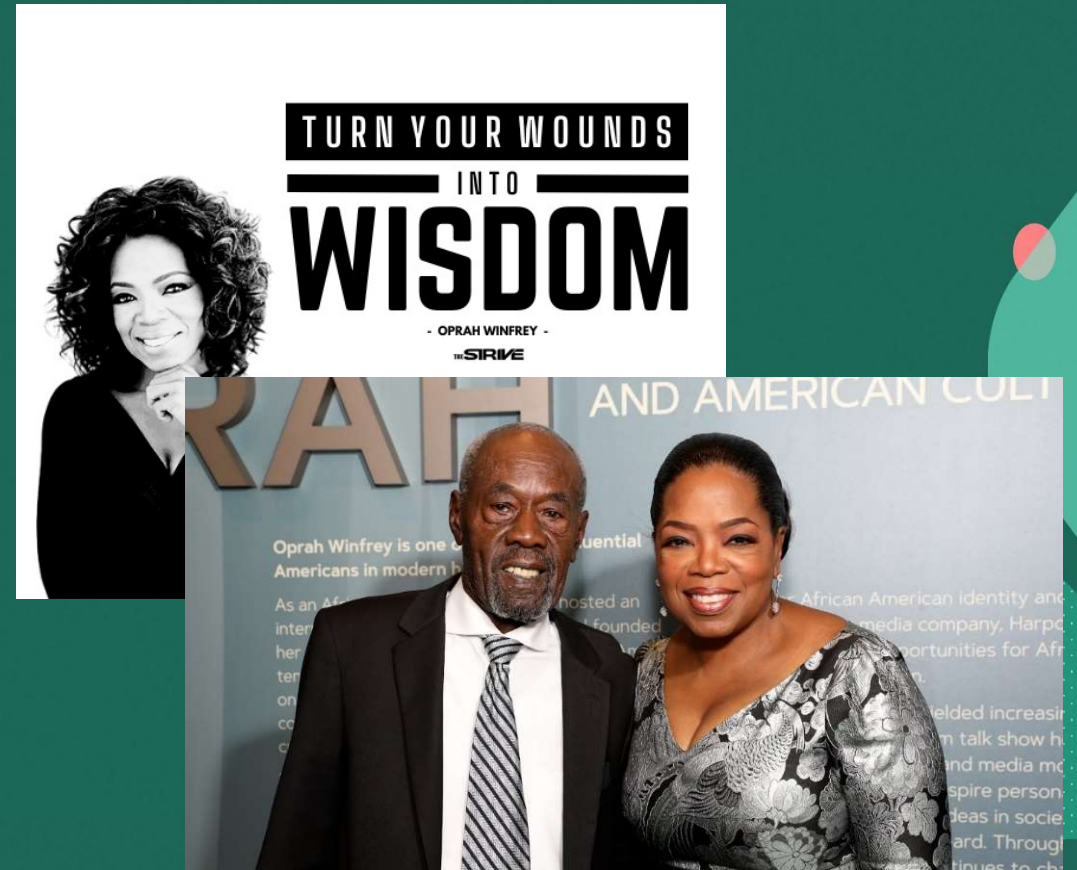

How did Oprah Winfrey get started?

- One day, she garnered enough confidence to participate in a beauty pageant. And it was her participation in this pageant that would eventually lead her into a job working for a radio station doing the news. Her love for speaking to an audience set the stage for continued success as she would go on to become a news anchor, which she would eventually leverage to host a TV chat show in Maryland, which ultimately led to her having her morning talk show called *People Are Talking*. After the first show, Oprah knew this was what she wanted to do.

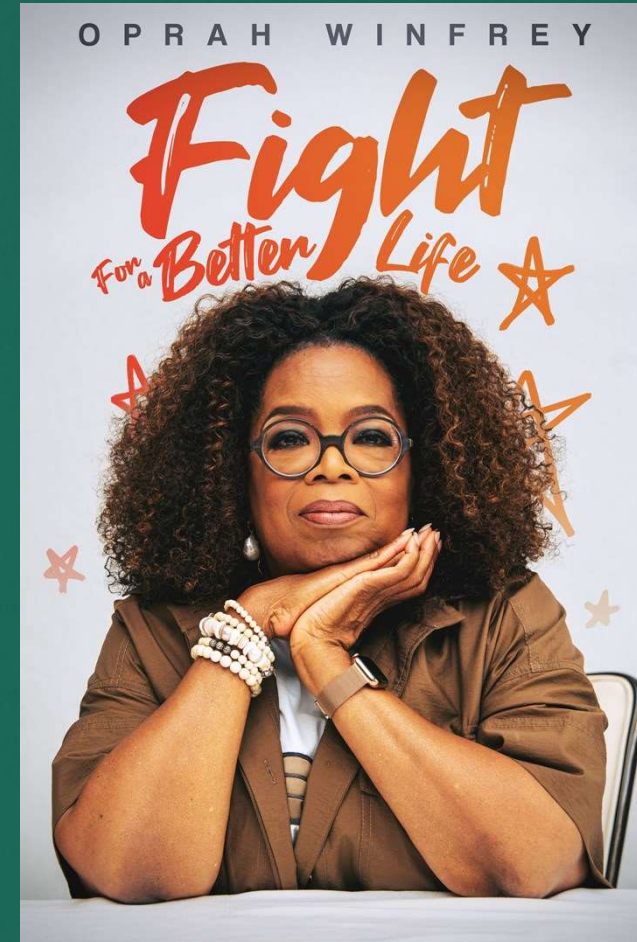

Why is it so important?

- In my opinion, what she has achieved is very important. Because not everyone could get back on their feet even with a big help. Oprah overcame massive challenges in her youth. Challenges that side line all too many people. With her dad help she chose to turn her wounds into wisdom, and went on to become one of the most successful talk show hosts in history (by helping many others do the same) with her own self-named talk show “The Oprah Winfrey show“.
- She also wrote a lot of books, that help many people gain self – confidence. Winfrey later lent her voice to several animated films, including Charlotte’s Web, The Princess and the Frog and a lot of others.

Oprah Winfrey life now

- Now Oprah Winfrey is one of the most recognizable and inspirational figures in daytime television. A media executive, actress, talk show host, television producer, and philanthropist, she's been unbelievably successful and popular. And she's been working in broadcasting since she was 17, while still at school.
- And now she is considered one of the richest self-made women in America. She was the richest African-American of the 20th century and was once the world's only black billionaire. By 2007, she was often ranked as the most influential woman in the world. Her net worth is 2,5 billion dollars.

Kita mergaitė pasirinko kurti filmuką pagal to paties namų darbo nurodymus bei kriterijus:

Tokius pristatymus vėlgi vertiname visi kartu, kadangi keletą pamokų anksčiau aptariame **kriterijus.**

Dar viena vaikų be galo mėgstama veikla pamokų metu žodyno arba gramatikos kartojimui yra žaidimas „Pass the ball“. Apie jį labai gražiai pasakoja 7-os klasės mokinė Emilija:

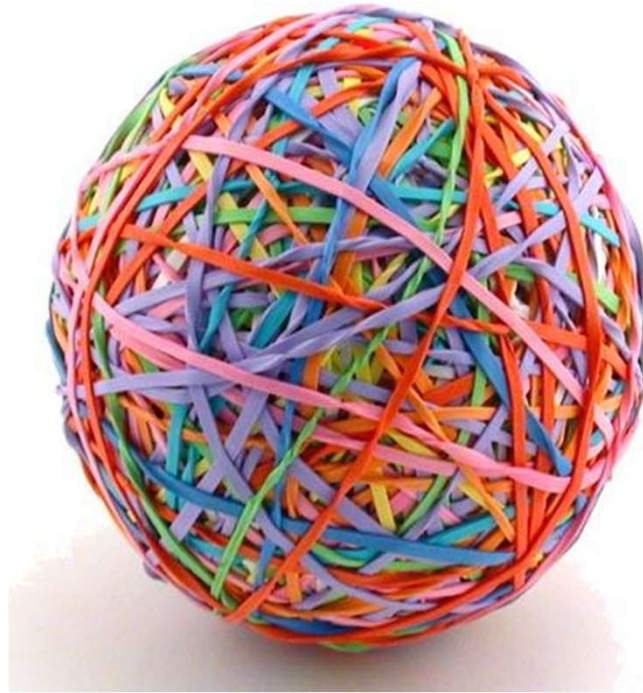

Pass the Ball Game

Pass the ball. When the
music stops you must say
the word or complete the
sentence!

Pass the BALL!

January, February March,

...

Žaidimas be galo naudingas dėl to, kad jį galima pritaikyti bet kokiai temai, klasei, tikslui ir t.t.

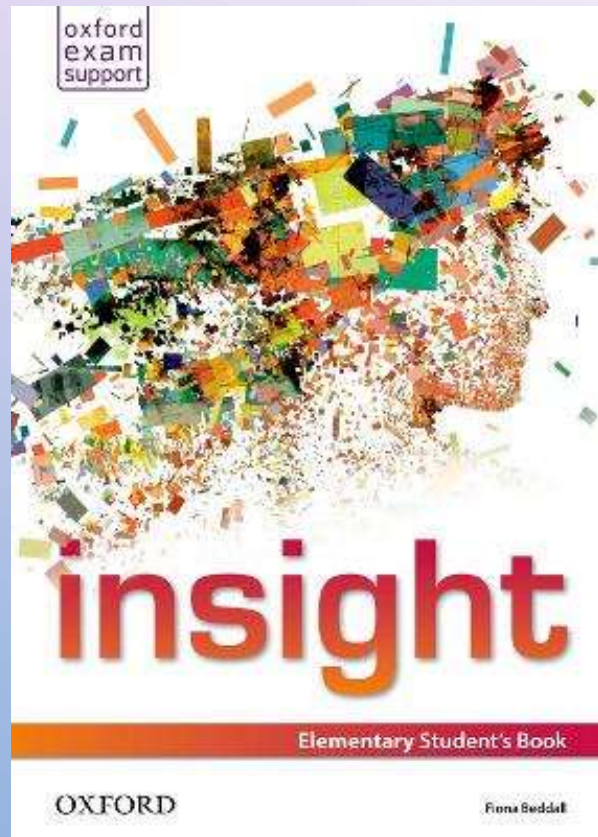

Bloga žinia ta, kad kaip ir viskam, taip ir šiam žaidimui pritaikyti reikia pasiruošimo laiko. Bet rezultatas ir mokinių džiaugsmas bei nauda to verti. Mokiniam nuobodu sausai „kalti“ mokomą medžiagą, o per žaidimus jie mokosi net patys to nejausdami.

Dar viena veikla, kuri mokinius įgalina ne tik pasitikrinti žinias, bet ir savarankiškai kažką naujo sužinoti bei išmokti, yra viktorinų (skaidrėse arba Kahoot platformoje) kūrimas.

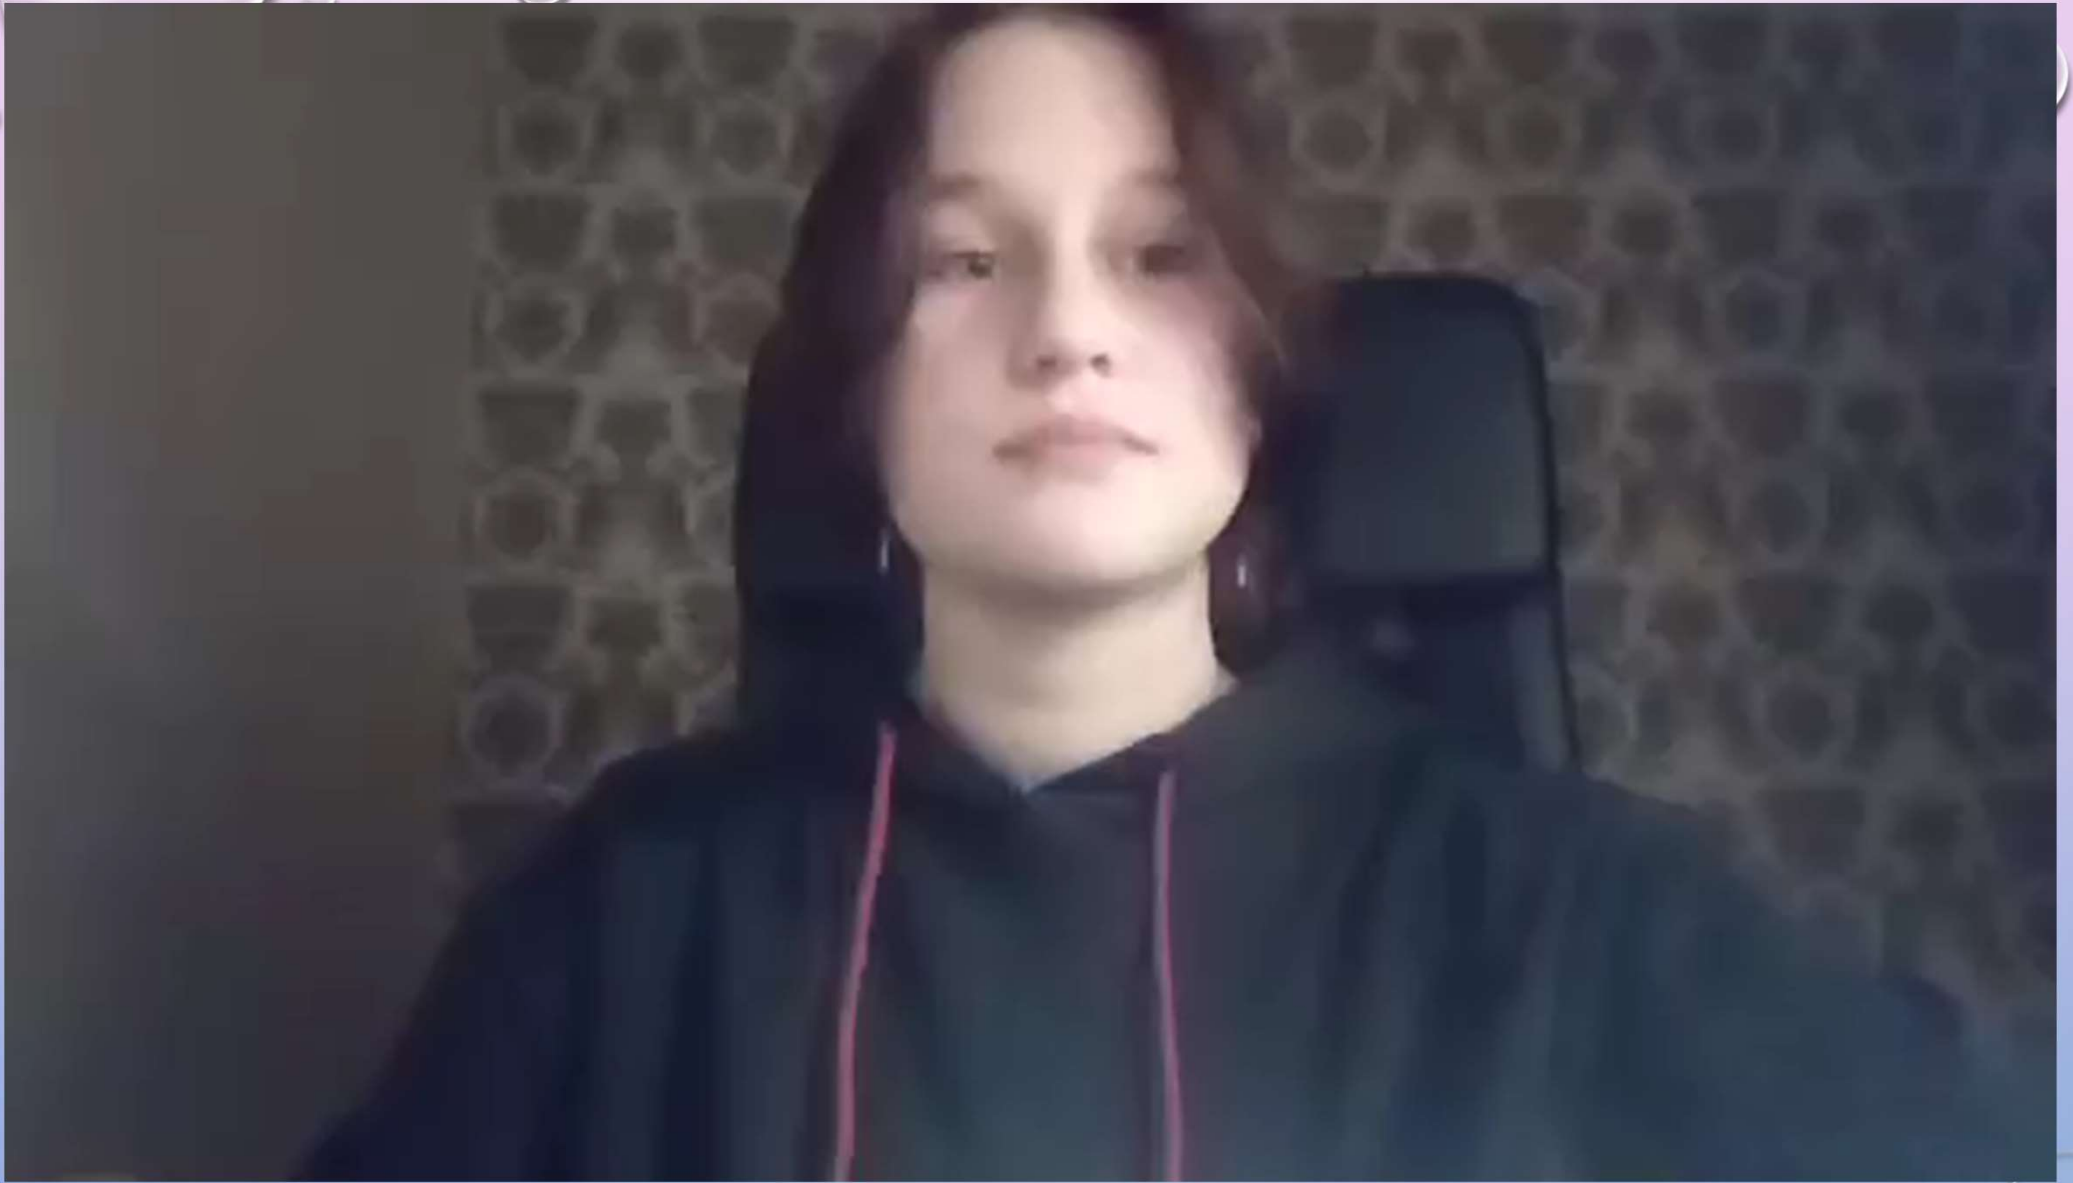

Kitiems mokiniams yra įdomios ir vadovėlio užduotys bei ypač tekstai, kuriuos visada lyginame su mūsų kultūra ir tradicijomis (**pilietiškumo kompetencijos ugdymas**) arba pasaulio gyvenimu. Mes dirbame pagal Insight vadovėlius, kurie mums tikrai tinka ir patinka. Ir štai ką kalba 6-os klasės mokinė Gustė:

Taigi užsienio kalbų pamokose mokiniai ne tik įgyja teorinių žinių, jas pritaiko praktiškai, bet ir ruošiasi sėkmingam gyvenimui ugdydami **įvairias kompetencijas**. Nes tik kompetentingi ir atsakingi žmonės gali kurti sėkmingą ateitį.

To mes ir linkime savo mokiniams 😊

Ačiū už dėmesį!
